

Here is WHY we are a Step Above The Rest

The most important thing to know about *The Reno Tahoe DJ Company* is that we offer an unobtrusive and non-overbearing style of DJing. This means you can rest assured you will NOT have a DJ who is self-serving, acting like a crazy person, talking too much on the microphone or playing the same old cheesy over-played wedding songs you hear at every wedding.

Our staff fully understands that exhibiting great “etiquette” and “composure” is just as important as handling the roles of Disc Jockey and Master of Ceremony. Our pre-event planning is designed to give you worry-free assurance in the weeks and months leading up to your wedding day. Owner Larry Williams will work with you personally to ensure a timeline/agenda is prepared that addresses everything that is important to you. We will fine-tune your customizable music program, handle all of the announcements for all of the traditions you wish to include and manage the event flow so that things move along in a timely, but not rushed, succession. Our behind the scene’s coordination will make your day worry free and stress free.

In addition, our years of experience and extensive training means we can offer some unique entertainment options that no other DJ company can. These unique personalized moments have become the hallmark of our service. With one phone call, you can learn more about these unique options that can set your wedding apart and make every guest feel like an active participant and not just a spectator. Your wedding should stand out as exceptional. We will make that happen!

Don’t settle for low-price, cookie-cutter! From incredibly simple to simply incredible – we will present your wedding day entertainment with style, class and precision. This is why you will find us on more venue referral lists than any other DJ company in the area. *The Reno Tahoe DJ Company* is committed to supplying the finest in DJ entertainment from the first consultation to the final dance.
